ABSTRACT

The State University of New York (SUNY) at Albany has worked with New York's community colleges to identify programs and patterns of study that maximize the transfer of credit from community college courses toward specific SUNY academic programs, preparing guides specific to each college. This collection provides transfer guides for two SUNY community colleges: Sullivan County Community College and Westchester Community College. In both guides, the opening sections describe the purpose of the guides and present a profile of the SUNY system. Next, a list is provided of specific transfer agreements in existence between the college and SUNY by area of study and discussions are provided of joint admissions and transfer credit policies, restricted programs, degree and general education requirements, and available financial aid. Following information on SUNY fees and a directory of related University offices, the programs of study for which the college has negotiated an articulation agreement with SUNY are presented. For each program, fall and spring course sequences for the first and second years at the community college are presented and the associate degree to which the sequence leads is identified. Finally, the joint admissions agreement between the college and SUNY and a list of transfer course equivalents are provided. (EP)

A MESSAGE FROM THE PRESIDENT

This transfer agreement is the result of thoughtful cooperation among the faculty and staff of the University at Albany, State University of New York and Sullivan County Community College. We have written this transfer agreement because we strongly believe that many students in a two-year program of study will benefit from the information and guidance this agreement offers.

Many academic programs at Sullivan County Community College provide strong preparation for and ready access to baccalaureate programs at the University at Albany. We have designed the agreement to identify programs and patterns of study which will maximize the transfer of credit toward specific academic programs. The agreement also includes a joint admissions section. Joint admission allows students direct entry into the combined Associate and Baccalaureate degree programs outlined in the agreement. The University at Albany is delighted to continue our long-standing, close relationship with Sullivan County Community College with this transfer agreement. We are proud to offer each student the opportunity to earn both an associate degree and baccalaureate degree within the State University of New York system.

Karen R. Hitchcock
President
University at Albany
State University of New York

TRANSFER AGREEMENT
SULLIVAN COUNTY COMMUNITY COLLEGE
AND THE
UNIVERSITY AT ALBANY
STATE UNIVERSITY OF NEW YORK

The attached programs of study represent the series of courses which are similar and parallel to those completed by students at the University at Albany. Sullivan County Community College students who complete the total program as outlined in these arrays will be awarded full transfer credit and be afforded the opportunity to complete the bachelor's degree program in four additional semesters of study. Those students admitted to Sullivan County Community College through the Joint Admissions Program and who meet all conditions described in that agreement will be assured entry into the University at Albany. Sulllivan County Community students pursuing programs which do not conform to those specified will continue to be considered for admission on an individual basis. The programs of study covered in this agreement will be amended or expanded with mutual consent through an annual review.

SULLIVAN COUNTY COMMUNITY COLLEGE

PRESIDENT JEFFREY B. WILLENS

UNIVERSITY AT ALBANY
STATE UNIVERSITY OF NEW YORK

PRESIDENT KAREN R. HITCHCOCK

INTRODUCTION

This transfer guide was created to facilitate the transfer process for students from Sullivan County Community College to the University at Albany, State University of New York.

Ideally, the transfer guide provides students with a plan of study which, if completed, allows completion of the associate's degree and the bachelor's degree in eight semesters of full-time study or the equivalent. The guide also outlines specific admission requirements which must be satisfied before a student may enroll in a restricted program.

Of equal importance, the transfer guide acts as a catalyst for discussion in the advising process in planning course electives to satisfy program requirements. Ultimately, the goal of this transfer guide is to provide students with the best educational experience from both Sullivan County Community College and the University at Albany.

Not every associate's degree program at Sullivan County Community College will have a corresponding major and degree program at Albany. As a result, the Sullivan County Community College degree programs included within the agreement were selected because of their similarity to majors and degree programs offered at the University at Albany. The coursework within each PROGRAM OF STUDY was selected to ensure that a student completing the program and receiving the associate's degree would realize the maximum amount of transfer credit and achieve a smooth transition when transferring to Albany.

PROFILE OF

THE UNIVERSITY AT ALBANY

STATE UNIVERSITY OF NEW YORK

The University at Albany, State University of New York, is the senior campus of the SUNY system, the largest system of public higher education in the nation. As one of four university centers in that system, Albany offers undergraduate and graduate education in a broad range of academic fields at the bachelor's, master's, and doctoral degree levels.

Three traditional obligations guide the University: teaching, research, and community service.

Instructional excellence is assured through the quality of the faculty and the fact that the University has designed its academic programs to allow students to achieve maximum intellectual growth, as well as thorough training to help meet career objectives. Students are encouraged to challenge themselves, to explore freely the world about them, and then to accept the responsibility that comes with challenge and freedom.

An active research program reflects the awareness of a responsibility to contribute to the expansion of knowledge and understanding. The University actively assists and encourages its members to do scholarly and creative research and to make the results widely available. The University enjoys a Carnegie Research 2 Public Research University rating, and is one of the top 140 educational institutions in the country in annual external funding.

Albany also understands its special role as an intellectual resource. Scholars are encouraged to share their skills and competence, and the University regularly invites the community to use its talents, resources, and facilities.

To meet each of these responsibilities, Albany maintains a wholehearted commitment to all of them.

Organization: The University enrolls students in eight degree-granting schools and colleges. The College of Arts and Sciences and the Schools of Business, Criminal Justice, Education, Public Affairs, and Social Welfare offer undergraduate and graduate programs. The Schools of Information Science and Policy and Public Health offer graduate programs only.

Description: Albany, the largest of 15 colleges in the Capital Region, enrolls approximately 17,000 students including 4,400 graduate students. Almost half of the University's undergraduate students pursue post-baccalaureate study. Albany's graduate students are going on in increasing numbers to distinguish themselves as faculty members at colleges and universities throughout the nation and abroad. A significant number of students and student groups are providing leadership support in

the form of community service projects. The University now awards more than 120 doctorates a year in disciplines in the arts and sciences and professions. Nationally and internationally renowned scholars are among the more than 650 full-time faculty members who are committed to maintaining the high academic standards which have characterized Albany since its founding in 1844. Seventeen of our faculty have earned the rank of Distinguished Professors, the highest academic honor for a faculty member in the State University of New York System. Additionally, an increasing number of the academic departments have gained national prominence. Finally, many of the faculty are integrally involved in meaningful community service efforts in the Capital Region and throughout the state.

The main campus, designed by noted architect Edward Durell Stone and completed in the mid-1960s, is located on the west side of the city. The setting is highlighted by a podium of 13 academic buildings on a common platform, all connected by a continuous roof and a lower-level corridor. Although most classrooms and laboratories are on this campus, the schools of the Rockefeller College of Public Affairs and Policy are located on the downtown campus. Extensively renovated, the downtown campus also includes residential, instructional, clinical, and research facilities. Shuttle service between the campuses is available.

In addition to the classrooms and laboratories on the academic podium of the main campus, there are the University Library and the Performing Arts Center, with several theatres, recital halls, rehearsal rooms, and instructional areas.

Four residence quadrangles on the main campus, each housing approximately 1,200 students, include eight three-story halls and a 23-story tower. Besides living quarters, each quadrangle has lounges, recreation areas, dining facilities, and classrooms.

Other special facilities on the campus include the Fine Arts Building, which houses one of the finest galleries in the Northeast, a meteorological laboratory equipped comparably to a National Weather Service first-order observing station, a Computing Center, and a linear accelerator for physics research. The hub of student activity is the Campus Center with its lounges, meeting rooms, ballroom, cafeteria, snack bar, rathskeller, dining room, bookstore, and bowling lanes. Outdoor recreation facilities include 24 tennis courts (12 with lights), 4 basketball and 6 volleyball courts, an all-weather running track, and several multi-purpose playing areas. In the Physical Education Center are a pool, handball and squash courts, and team sports areas.

The newest addition to the athletic and physical education facilities is the Recreation and Convocation Center (RACC). With an arena seating capacity of nearly 4,800 the facility is one of the largest on-campus basketball facilities in the country at the Division III level. However, the facility is not just for basketball. The facility also houses a running track for indoor competition, a modern fitness center, a fully equipped and modern athletic training complex with whirlpools and other rehabilitative equipment, four additional handball/racquetball courts, four squash courts and two main lockerroom facilities as well as 10 smaller team lockerrooms. All facilities are handicapped accessible and have designated seating areas for handicapped spectators.

TRANSFER AGREEMENTS

The academic programs in this booklet define the specific agreements reached between the two institutions for specific majors in the three broad academic areas of Humanities and Fine Arts, Social and Behavioral Sciences, and Science and Mathematics. Several Special/Professional programs in Criminal Justice, Social Welfare and Business Administration are also included.

There are formal agreements for:

HUMANITIES AND FINE ARTS

Art
English
Foreign Languages: French, Spanish
Philosophy

SOCIAL AND BEHAVIORAL SCIENCE

Anthropology
History/Social Studies (Teacher Education)
Political Science/Public Affairs
Psychology
Rhetoric & Communication
Sociology

MATHEMATICS AND SCIENCE

Biology
Chemistry
Mathematics
Physics

SPECIAL/PROFESSIONAL PROGRAMS

Accounting/Business Administration
Criminal Justice
Social Welfare

The transfer agreements specify the following:

Sullivan County Community College students who follow a program as outlined and receive an associate's degree and are admitted to the University at Albany will be awarded full transfer credit and have the opportunity to complete the bachelor's degree program in four additional semesters of full-time study or the equivalent. The programs are designed to lay the foundation of introductory and intermediate level coursework (when possible) in the major area and in some instances the minor field of study.

JOINT ADMISSION

An important component of these articulated Programs of Study is the corresponding Joint Admissions Agreement. That procedure, which is detailed in a later part of the Guide, is designed to allow students to be admitted to Sullivan County Community College and the University at Albany as freshmen, with conditional acceptance to the University at Albany with junior status after completion of one of the Programs of Study. Candidates selected for the Joint Admissions Program will receive a letter of acknowledgment from the Admissions Office at the University at Albany during the first semester of study at Sullivan County Community College. Following completion of the two-year program at Sullivan County Community College, in which minimum academic achievement levels must be attained, students will automatically move to the Albany campus to complete the final two years and the bachelor's degree.

While enrolled at Sullivan County Community College and completing the requirements for an associate's degree, students are considered by the University at Albany as part of its academic community. Besides setting up a systematic method of communication with each student throughout this two-year period, students will be encouraged to attend appropriate functions at the University at Albany. Additionally, students are encouraged to meet on an individual basis with advisors. At the same time, representatives from Albany will make periodic visits to the Sullivan County Community College campus to provide academic advisement about the University at Albany's curriculum and general information about the University. These representatives will also meet, as necessary, with faculty and staff at Sullivan County Community College who are involved in advising students enrolled in the Joint Admissions program.

The transfer programs for which specific formal agreements exist are listed under TRANSFER AGREEMENTS outlined in a later part of this publication. A complete listing of all undergraduate majors available at the University at Albany also follows.

QUESTION: I am interested in a major for which a TRANSFER AGREEMENT or PROGRAM OF STUDY has not been worked out. Can I still transfer to Albany after I complete my associate's degree?

ANSWER: Yes. Albany will consider a transfer application from any qualified applicant. However, you will need to plan your associate degree program carefully in order to ensure maximum transferability of credit. Additionally, some of the introductory coursework required for your intended program is offered only at Albany; you may wish to take advantage of the cross-registration agreement and cross-register for courses at Albany. Contact your cross-registration coordinator for details (Sullivan County Community College Registrar's Office).

Finally, you should be aware that it may take longer than four additional semesters of study to complete your bachelor's degree at Albany. The Sullivan County Community College Counseling Center and Albany advising staffs are ready to assist you to develop a best fit program.

The transfer program outlines which appear later in the Guide list the exact courses by Sullivan County Community College designation (with Albany equivalents in parenthesis) which must be followed for the majors where transfer agreements have been finalized. The series of courses within the **PROGRAM OF STUDY** allow students to move immediately and directly into the upper division (junior/senior) course requirements.

TRANSFER CREDIT

QUESTION: Is there a limit to the number of credits that can be transferred to Albany from two-year schools?

ANSWER: Yes, a maximum of 64 graduation credits can be transferred to Albany from any combination of two-year schools.

QUESTION: Does Albany allow transfer credit in courses for which a D-grade was earned?

ANSWER: Yes, when certain conditions are met. Albany has what is known as a balanced D policy. In order to receive a graduation credit for a course in which a D was earned, the D must be "balanced out" by an equal number of credits of B, from the same college where the D was earned. The policy further states that to use a grade of D in the major, the D must be "balanced out" by an equal number of credits of B, applicable to the major, earned at the same institution the D was earned. The same policy also applies to the minor.

Satisfactory/Unsatisfactory and Pass/Fail graded courses are considered for transfer credit where the passing grade was earned.

QUESTION: When will I find out how many credits will transfer to Albany?

ANSWER: A tentative evaluation of transfer credits is made at the time formal admission is offered and is communicated in the letter of admission. A final evaluation

of transfer credit is completed after receipt of the admissions deposit and in time for review by the student and advisor during the Summer Planning Conference or January Orientation. If you are following a **PROGRAM OF STUDY**, you should have a very good idea how many transfer credits you will receive.

Students transferring into programs other than those included in this Guide will continue to have courses evaluated for transfer using Albany's principles of comparability and applicability. Generally, if the course is similar to one offered on this campus, or is otherwise considered a college level course in nature and level, and is applicable to the bachelor's degree requirements, transfer credit will be awarded.

RESTRICTED PROGRAMS

The following programs at the University at Albany; Accounting, Business Administration, Computer Science, Computer Science and Applied Mathematics, Criminal Justice, Economics, Mathematics, Psychology, Rhetoric and Communication and Social Welfare programs have very specific requirements for admission to the major. The admission requirements have important implications for the courses which should be take at Sullivan County Community College. It is your responsibility to carefully read ALL the information contained in the Guide relating to your choice of major. Should you have questions regarding any of the information contained in the Guide, please consult with either the Counseling Center at Sullivan County Community College or with Office of the Dean of Transfer Affairs at UA, 442-3531.

Repeating Courses to Meet Program Admission Requirements

For purposes of calculating admission requirements into restricted majors or programs, once a student has received the grade of A or B in a course, no future grade in that course or its equivalent will be used in determining the student's average for admission to that major or program. An "equivalent" course, for purposes of this policy, is any course for which the student cannot receive credit by virtue of her or his having satisfactorily completed the original course.

DEGREE REQUIREMENTS

The University at Albany awards the undergraduate degrees of Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) Both require completion of a minimum of 120 graduation credits.

Of the 120 graduation credits for the B.A. degree, at least 90 must be in the liberal arts and sciences. Of those same 120 credits, 30-36 credits are required in an approved major and `8-24 in an approved minor. Eighteen (18) of the major credits, including 12 at the junior level or above, must be completed at the Albany campus; six (6) of the minor credits must be taken at the University at Albany at or above the junior level.

Of the 120 graduation credits required for the B.S. degree, at least 60 must be in the liberal arts and sciences. Credit totals and requirements at the 300-level for the major and minor are the same as for the B.A.

QUESTION: Do transfer students have to complete the University at Albany's General Education Requirements totaling 24 credits distributed over 5 categories?

ANSWER: It depends on what type of degree, if any, you have earned. See below for detailed explanation.

1) Students transferring without an Associates Degree must complete ALL General Education Requirements.

2) Associates in Arts/Associates in Science degree holders--A.A. or A.S. degree holders will receive a blanket waiver of the University at Albany's General Education Requirements; there is an automatic assumption that ALL General Education Requirements have been satisfied.

3) Associates in Applied Science/Associates in Occupational Science--A.A.S. or A.O.S. degree holders will receive a waiver IF the following conditions are satisfied:

a) Satisfactorily completes 30 credit hours that the UA considers Liberal Arts and Sciences. Students may wish to consult with the Counseling Center at Sullivan County Community College for advice on what courses are acceptable at UA for Liberal Arts and Sciences.

b) Satisfactorily completes with a grade of "C" or higher UA's lower division writing requirement. Freshmen English I (ENG 101) satisfies this condition.

c) Satisfactorily completes at least one course from each of the following areas:

1) Literature and the Fine Arts

2) Social and Behavioral Sciences

3) Physical or Life Sciences

Also, students who are waived from the General Education Requirements DO NOT have to complete the UA Human Diversity Requirement, but MUST complete the upper level writing intensive requirement.

Other degree requirements are listed in Albany's Undergraduate Bulletin under the section entitled Requirements for the Bachelor's Degree.

FINANCIAL AID

Financial assistance in the form of loans, grants and work-study opportunities is available for eligible transfer students who apply. To qualify for any kind of financial aid (except the Federal Plus Loans), you are required to file each year the Federal Application for Federal Student Aid/FSFSA. New York State residents should also complete the New York State Tuition Assistance Program (TAP) application.

A list of the various federal and state financial aid programs available to matriculated students who demonstrate a need for assistance based on the financial data provided on their FAFSA follows. Greater elaboration of each program is available in The Undergraduate Bulletin as well as with the Office of Financial Aid. Students are encouraged to apply for all aid for which they feel they are qualified.

FEDERAL PROGRAMS

Federal Pell Grants

Federal Supplemental Education Opportunity Program (SEOG)

Federal Perkins Loans

College Work-Study Program (CWP)

Social Security Benefits for Children of Deceased or Disabled Parents

Veterans Administration Educational Benefits (VA)

Federal Stafford Loans

NEW YORK STATE PROGRAMS

Tuition Assistance Program (TAP)

Regents Award for Children of Deceased or Disabled Veterans

Vietnam Veterans Tuition Awards (VVTA)

State Aid to Native Americans

New York State Educational Opportunity Program (EOP)

The Office of Financial Aid exists to ensure that no student, for lack of economic resources, becomes less than a full participant in University life. This assumes that students and families will first make their best possible efforts to assist themselves. Financial need for aid is the difference between the total cost of attending Albany and your family's ability to pay, as determined by a standard economic need analysis. Most financial aid is based upon the demonstrated financial need of the family. Students are encouraged to file the Financial Aid Form (FAFSA) as the first step in the aid application process as early as possible in advance of the academic year. FAFSA and other forms received after July 1st may not be processed in time to assure that funds will be available in early September (for students entering in Fall semester).

GENERAL PAYMENT INFORMATION

Tuition	Fall 1997	Spring 1998
N.Y.S. Residents	$ 1,700.00	$ 1,700.00

ARTICULATED TRANSFER AGREEMENT

The following Programs of Study represent those majors for which Sullivan County Community College and the University at Albany have negotiated transfer agreements. The Programs of Study constitute the best possible preparation for completion of the bachelor's degree. The courses are listed using Sullivan County Community College course numbers and titles. The University at Albany course equivalents are noted in parentheses. Where no equivalent course exists, the notation will indicate the academic department or school in which the course will be transferred. A level designation (10 = Freshman, 20 = Sophomore) and the letter E designating the course as an elective will be indicated. For example, AEng 20E is a sophomore level English elective. Programs are grouped according to the general academic discipline which offers the major.

Sullivan County Community College students should note that in addition to the recommended courses in each of the following programs Sullivan County Community requires two Physical Education activity courses to satisfy their degree requirements.

Every attempt has been made to schedule every other Sullivan County Community College Associate degree requirement into each of the programs, but Sullivan County Community College students and advisors should take special care to insure that all Associate degree requirements have been satisfied.

A Joint Admissions Agreement Between
The University at Albany, State University
of New York and
Sullivan County Community College

The purpose of this agreement is to outline the procedures for a joint admissions program between the University at Albany, State University of New York (hereinafter identified as the University at Albany or UA) and Sullivan County Community College (hereinafter identified as SCCC).

Under the Joint Admissions Program, students are admitted to both SCCC and UA as first year matriculants, with conditional acceptance to UA with junior status after completion of their Associate in Arts or Associate in Science degree. Students are assured that if they achieve the stipulated academic proficiency and distribution requirements as detailed in the SCCC/UA Transfer Guide, it will be possible to complete their baccalaureate degree at the University at Albany in four additional semesters (or equivalent for part-time students). Candidates selected for the program will receive, a letter of admission from the Director of Admissions at SCCC and the Director of Admissions at the University at Albany.

The students in the Joint Admission Program are expected to enroll at the University at Albany in the semester following the completion of the Associate degree. Students not wishing to continue their baccalaureate program at the University at Albany at that time must apply for deferral, enabling them to delay study for a specified length of time. Students who enroll at a third institution lose their automatic transfer and must have their total academic record reviewed for transfer consideration.

Major requirements for the bachelor's degree will be those in effect at the time the student enters SCCC or transfers to UA, at the choice of the student.

The University at Albany, State University of New York and Sullivan County Community College agree jointly to provide for the following:

1. SCCC and the University at Albany will each designate a coordinator of the joint admissions program at their campus. The coordinator at SCCC is the Director of Admissions; the coordinator at University at Albany is Mr. George Mitchell, Undergraduate Admissions Office.

2. SCCC and the University at Albany will develop, cooperatively, informational publications pertaining to the joint admissions program.

To be eligible for the Joint Admissions Program students need to follow these guidelines:

1. Complete the joint application form provided by SCCC (Intent to Enroll Form).

2. In the semester preceding anticipated completion of the SCCC degree, send the tuition deposit to the Office of Student Accounts at the University at Albany by May 1 for Fall enrollment, or December 1 for Spring enrollment.

3. At some point prior to enrollment at the University at Albany, provide identifying information necessary to include the students in the SUNY and UA student data base.

The University at Albany, State University of New York agrees to provide the following for students at Sullivan County Community College who have been accepted in to the Joint Admission Program:

1. In consultation with SCCC staff, a Transfer Guide for Sullivan County Community College students has been developed, outlining required and recommended courses for each articulated **PROGRAM OF STUDY**.

2. Students who pay their tuition deposit by the appropriate deadline will be able to early-register for the succeeding semester and will be given the same registration priority as the University's continuing students. The contract person at the University at Albany is Dan Smith, Office of the Dean of Undergraduate Students, AD-214, 442-3950. Joint admit students, who early register, are required to attend a Summer Planning Conference or January Orientation session.

3. Student will receive periodic information about activities at the University at Albany and about their intended program. They will be welcome at appropriate UA functions and will be encouraged to visit the University at Albany to tour the campus and/or meet on an individual basis with advisors.

4. Representatives of the University at Albany will meet at the SCCC campus with students in the joint admission program on a periodic basis. The purpose of these meetings will be to provide academic advisement about the University at Albany's curriculum and general information about the University.

5. The University at Albany agrees to provide, as needed, information sessions with faculty and staff of SCCC who will be involved in advising students enrolled in the joint admissions program.

6. The University at Albany will provide SCCC reports on the academic progress of SCCC graduates who continue their studies at the University at Albany under the terms of this joint admissions program.

7. Freshman applicants from Sullivan County who are denied admission will be notified of this joint admissions program and be encouraged to contact SCCC Admissions Office for application materials.

Sullivan County Community College agrees to the following:

1. Application forms for the Joint Admission Program may be obtained from SCCC. Office of Admissions.

2. Selection of students for this program will be made by the SCCC Office of Admissions according to the basic criteria effect at SCCC. The University at Albany Undergraduate Admissions Office and Office of Transfer Affairs are available for consultation and information on recruitment and admission matters.

3. On October 31st and February 28th of each year, SCCC will provide University at Albany with a list of all students participating in the joint admissions program. Also at this time, SCCC will submit a list of those joint admissions students scheduled to graduate at the end of the semester who have indicated their intent to attend the University at Albany the following semester. Copies of student transcripts will be provided to UA Undergraduate Admissions Office at the end of each semester.

4. SCCC agrees to distribute the SCCC/UA Transfer Guide to joint admissions students and assist in setting up advisement programs involving SCCC faculty and staff.

Terms of this Agreement

This agreement will go into effect for the Fall 1995 admissions date.

To meet the terms of the Admissions guarantee, SCCC students interested in programs in the Humanities and Fine Arts and in the Social and Behavioral Sciences must have a minimum 2.40 Grade Point Average (GPA); students in programs in the Sciences and Mathematics (exclusive of Computer Science and Computer Science/Applied Mathematics) are required to have a 2.60 GPA. Computer Science and Computer Science/Applied Mathematics majors need to present a 2.75 GPA in the four core courses in that program. To qualify for guaranteed admission into Criminal Justice will need a 3.20 GPA and Social Welfare students will be required to have a 3.00 GPA. To qualify for Accounting/Business Administration a 3.25 Adjusted Grade Point Average (AGPA) is necessary. SCCC students who enter the Joint Admission/Transfer Articulated Program who have not achieved the required GPA or who have not completed a PROGRAM OF STUDY are encourage to apply for admission. Each case will be considered on it individual merits.

Approved for Sullivan County Community College

WESTCHESTER COMMUNITY COLLEGE

PREPARED BY:

PATRICK A. FOTI
ASSOCIATE DEAN -
TRANSFER AFFAIRS

FALL 1997

A MESSAGE FROM THE PRESIDENT

This transfer agreement is the result of thoughtful cooperation among the faculty and staff of the University at Albany, State University of New York and Westchester Community College. We have designed this transfer agreement because we strongly believe that many students in a two-year program of study will benefit from the information and guidance this agreement offers.

Many academic programs at Westchester Community College provide strong preparation for and ready access to baccalaureate programs at the University at Albany. We have designed the agreement to identify programs and patterns of study which will maximize the transfer of credit toward specific academic programs. The agreement also includes a joint admissions section. Joint Admission allows students direct entry into the combined Associate and Baccalaureate degree programs outlined in the agreement. The University at Albany is delighted to continue our long-standing, close relationship with Westchester Community College with this transfer agreement. We are proud to offer each student the opportunity to earn both an associate degree and baccalaureate degree within the State University of New York system.

Karen R. Hitchcock
President
University at Albany
State University of New York

TRANSFER COURSE EQUIVALENTS 35

TRANSFER AGREEMENT
WESTCHESTER COMMUNITY COLLEGE
AND THE
UNIVERSITY AT ALBANY
STATE UNIVERSITY OF NEW YORK

The attached programs of study represent the series of courses which are similar and parallel to those completed by students at the University at Albany. Westchester Community College students who complete the total program as outlined in these arrays will be awarded full transfer credit and be afforded the opportunity to complete the bachelor's degree program in four additional semesters of study. Those students admitted to Westchester Community College through the Joint Admissions Program and who meet all conditions described in that agreement will be assured entry into the University at Albany. W.C.C. students pursuing programs which do not conform to those specified will continue to be considered for admission on an individual basis. The programs of study covered in this agreement will be amended or expanded with mutual consent through an annual review.

WESTCHESTER COMMUNITY COLLEGE

PRESIDENT JOSEPH N. HANKIN

UNIVERSITY AT ALBANY
STATE UNIVERSITY OF NEW YORK

PRESIDENT KAREN R. HITCHCOCK

INTRODUCTION

This transfer guide was created to facilitate the transfer process for students from Westchester Community College to the University at Albany, State University of New York.

Ideally, the transfer guide provides students with a plan of study which, if completed, allows completion of the associate's degree and the bachelor's degree in eight semesters of full-time study or the equivalent. The guide also outlines specific admission requirements which must be satisfied before a student may enroll in a restricted program.

Of equal importance, the transfer guide acts as a catalyst for discussion in the advising process in planning course electives to satisfy program requirements. Ultimately, the goal of this transfer guide is to provide students with the best educational experience from both Westchester Community College and the University at Albany.

Not every associate's degree program at Westchester Community College will have a corresponding major and degree program at Albany. As a result, the Westchester Community College degree programs included within the agreement were selected because of their similarity to majors and degree programs offered at the University at Albany. The coursework within each PROGRAM OF STUDY was selected to ensure that a student completing the program and receiving the associate's degree would realize the maximum amount of transfer credit and achieve a smooth transition when transferring to Albany.

PROFILE OF

THE UNIVERSITY AT ALBANY

STATE UNIVERSITY OF NEW YORK

The University at Albany, State University of New York, is the senior campus of the SUNY system, the largest system of public higher education in the nation. As one of four university centers in that system, Albany offers undergraduate and graduate education in a broad range of academic fields at the bachelor's, master's, and doctoral degree levels.

Three traditional obligations guide the University: teaching, research, and community service.

Instructional excellence is assured through the quality of the faculty and the fact that the University has designed its academic programs to allow students to achieve maximum intellectual growth, as well as thorough training to help meet career objectives. Students are encouraged to challenge themselves, to explore freely the world about them, and then to accept the responsibility that comes with challenge and freedom.

An active research program reflects the awareness of a responsibility to contribute to the expansion of knowledge and understanding. The University actively assists and encourages its members to do scholarly and creative research and to make the results widely available. The University enjoys a Carnegie Research 2 Public Research University rating, and is one of the top 140 educational institutions in the country in annual external funding.

Albany also understands its special role as an intellectual resource. Scholars are encouraged to share their skills and competence, and the University regularly invites the community to use its talents, resources, and facilities.

To meet each of these responsibilities, Albany maintains a wholehearted commitment to all of them.

Organization: The University enrolls students in eight degree-granting schools and colleges. The College of Arts and Sciences and the Schools of Business, Criminal Justice, Education, Public Affairs, and Social Welfare offer undergraduate and graduate programs. The Schools of Information Science and Policy and Public Health offer graduate programs only.

Description: Albany, the largest of 15 colleges in the Capital Region, enrolls approximately 17,000 students including 4,400 graduate students. Almost half of the University's undergraduate students pursue post-baccalaureate study. Albany's graduate students are going on in increasing numbers to distinguish themselves as faculty members at colleges and universities throughout the nation and abroad. A significant number of students and student groups are providing leadership support in

the form of community service projects. The University now awards more than 120 doctorates a year in disciplines in the arts and sciences and professions. Nationally and internationally renowned scholars are among the more than 650 full-time faculty members who are committed to maintaining the high academic standards which have characterized Albany since its founding in 1844. Seventeen of our faculty have earned the rank of Distinguished Professors, the highest academic honor for a faculty member in the State University of New York System. Additionally, an increasing number of the academic departments have gained national prominence. Finally, many of the faculty are integrally involved in meaningful community service efforts in the Capital Region and throughout the state.

The main campus, designed by noted architect Edward Durell Stone and completed in the mid-1960s, is located on the west side of the city. The setting is highlighted by a podium of 13 academic buildings on a common platform, all connected by a continuous roof and a lower-level corridor. Although most classrooms and laboratories are on this campus, the schools of the Rockefeller College of Public Affairs and Policy are located on the downtown campus. Extensively renovated, the downtown campus also includes residential, instructional, clinical, and research facilities. Shuttle service between the campuses is available.

In addition to the classrooms and laboratories on the academic podium of the main campus, there are the University Library and the Performing Arts Center, with several theatres, recital halls, rehearsal rooms, and instructional areas.

Four residence quadrangles on the main campus, each housing approximately 1,200 students, include eight three-story halls and a 23-story tower. Besides living quarters, each quadrangle has lounges, recreation areas, dining facilities, and classrooms.

Other special facilities on the campus include the Fine Arts Building, which houses one of the finest galleries in the Northeast, a meteorological laboratory equipped comparably to a National Weather Service first-order observing station, a Computing Center, and a linear accelerator for physics research. The hub of student activity is the Campus Center with its lounges, meeting rooms, ballroom, cafeteria, snack bar, rathskeller, dining room, bookstore, and bowling lanes. Outdoor recreation facilities include 24 tennis courts (12 with lights), 4 basketball and 6 volleyball courts, an all-weather running track, and several multi-purpose playing areas. In the Physical Education Center are a pool, handball and squash courts, and team sports areas.

The newest addition to the athletic and physical education facilities is the Recreation and Convocation Center (RACC). With an arena seating capacity of nearly 4,800 the facility is one of the largest on-campus basketball facilities in the country at the Division III level. However, the facility is not just for basketball. The facility also houses a running track for indoor competition, a modern fitness center, a fully equipped and modern athletic training complex with whirlpools and other rehabilitative equipment, four additional handball/racquetball courts, four squash courts and two main lockerroom facilities as well as 10 smaller team lockerrooms. All facilities are handicapped accessible and have designated seating areas for handicapped spectators.

TRANSFER AGREEMENTS

The academic programs in this booklet define the specific agreements reached between the two institutions for specific majors in the three broad academic areas of Humanities and Fine Arts, Social and Behavioral Sciences, and Science and Mathematics. Special/Professional programs in Social Welfare and Business Administration are also included.

There are formal agreements for:

HUMANITIES AND FINE ARTS

Art
English
Foreign Languages: French, Italian and Spanish
Philosophy
Theatre

SOCIAL AND BEHAVIORAL SCIENCE

Economics
History/Social Studies (Teacher Education)
Political Science/Public Affairs
Psychology
Rhetoric & Communication
Sociology

MATHEMATICS AND SCIENCE

Biology
Chemistry
Computer Science
Computer Science/Applied Mathematics
Mathematics
Physics

SPECIAL/PROFESSIONAL PROGRAMS

Business Administration
Social Welfare

The transfer agreements specify the following:

WCC students who follow a program as outlined and receive an associate's degree and are admitted to the University at Albany will be awarded full transfer credit and have the opportunity to complete the bachelor's degree program in four additional semesters of full-time study or the equivalent. The programs are designed to lay the foundation of introductory and intermediate level coursework (when possible) in the major area and in some instances the minor field of study.

JOINT ADMISSION

An important component of these articulated Programs of Study is the corresponding Joint Admissions Agreement. That procedure, which is detailed in a later part of the Guide, is designed to allow students to be admitted to Westchester Community College and the University at Albany as freshmen, with conditional acceptance to the University at Albany with junior status after completion of one of the Programs of Study. Candidates selected for the Joint Admissions Program will receive a letter of acknowledgment from the Admissions Office at the University at Albany during the first semester of study at Westchester Community College. Following completion of the two-year program at WCC, in which minimum academic achievement levels must be attained, students will automatically move to the Albany campus to complete the final two years and the bachelor's degree.

While enrolled at WCC and completing the requirements for an associate's degree, students are considered by the University at Albany as part of its academic community. Besides setting up a systematic method of communication with each student throughout this two-year period, students will be encouraged to attend appropriate functions at the University at Albany. Additionally, students are encouraged to meet on an individual basis with advisors. At the same time, representatives from Albany will make periodic visits to the WCC campus to provide academic advisement about the University at Albany's curriculum and general information about the University. These representatives will also meet, as necessary, with faculty and staff at WCC who are involved in advising students enrolled in the Joint Admissions program.

The transfer programs for which specific formal agreements exist are listed under TRANSFER AGREEMENTS outlined in a later part of this publication. A complete listing of all undergraduate majors available at the University at Albany also follows.

QUESTION: I am interested in a major for which a TRANSFER AGREEMENT or PROGRAM OF STUDY has not been worked out. Can I still transfer to Albany after I complete my associate's degree?

ANSWER: Yes. Albany will consider a transfer application from any qualified applicant. However, you will need to plan your associate degree program carefully in order to ensure maximum transferability of credit. Some majors at the University at Albany could not be fitted with the appropriate first two-year introductory courses because those courses are not offered at Westchester Community College. WCC students interested in an Albany major not included in this Agreement should make their transfer plans known to their Academic/Transfer Counselor as early as possible so that all options for meeting the necessary prerequisites can be explored. Cross-registering at other nearby colleges, for example, is one option WCC students should consider for completing courses critical to their transfer. Contact your cross-registration coordinator for details (WCC Registrar's Office).

Finally, you should be aware that it may take longer than four additional semesters of study to complete your bachelor's degree at Albany. The Westchester Community College Counseling Center or curriculum chairs and Albany advising staffs are ready to assist you to develop a best fit program.

The transfer program outlines which appear later in the Guide list the exact courses by WCC designation (with Albany equivalents in parenthesis) which must be followed for the majors where transfer agreements have been finalized. The series of courses within the **PROGRAM OF STUDY** allow students to move immediately and directly into the upper division (junior/senior) course requirements.

TRANSFER CREDIT

QUESTION: Is there a limit to the number of credits that can be transferred to Albany from two-year schools?

ANSWER: Yes, a maximum of 64 graduation credits can be transferred to Albany from any combination of two-year schools.

QUESTION: Does Albany allow transfer credit in courses for which a D-grade was earned?

ANSWER: Yes, when certain conditions are met. Albany has what is known as a balanced D policy. In order to receive a graduation credit for a course in which a D was earned, the D must be "balanced out" by an equal number of credits of B, from the same college where the D was earned. The policy further states that to use a grade of D in the major, the D must be "balanced out" by an equal number of credits of B, applicable to the major, earned at the same institution the D was earned. The same policy also applies to the minor.

Satisfactory/Unsatisfactory and Pass/Fail graded courses are considered for transfer credit where the passing grade was earned.

QUESTION: When will I find out how many credits will transfer to Albany?

ANSWER: A tentative evaluation of transfer credits is made at the time formal admission is offered and is communicated in the letter of admission. A final evaluation of transfer credit is completed after receipt of the admissions deposit and in time for review by the student and advisor during the Summer Planning Conference or January Orientation. If you are following a **PROGRAM OF STUDY**, you should have a very good idea how many transfer credits you will receive.

Students transferring into programs other than those included in this Guide will continue to have courses evaluated for transfer using Albany's principles of comparability and applicability. Generally, if the course is similar to one offered on this campus, or is otherwise considered a college level course in nature and level, and is applicable to the bachelor's degree requirements, transfer credit will be awarded.

RESTRICTED PROGRAMS

The following programs at the University at Albany; Accounting, Business Administration, Computer Science, Computer Science and Applied Mathematics, Criminal Justice, Economics, Mathematics, Psychology, Rhetoric and Communication and Social Welfare programs have very specific requirements for admission to the major. The admission requirements have important implications for the courses which should be take at Westchester Community College. It is your responsibility to carefully read ALL the information contained in the Guide relating to your choice of major. Should you have questions regarding any of the information contained in the Guide, please consult with either the Counseling Center or curriculum chairs at WCC or with Office of the Dean of Transfer Affairs at UA, 442-3531.

Repeating Courses to Meet Program Admission Requirements

For purposes of calculating admission requirements into restricted majors or programs, once a student has received the grade of A or B in a course, no future grade in that course or its equivalent will be used in determining the student's average for admission to that major or program. An "equivalent" course, for purposes of this policy, is any course for which the student cannot receive credit by virtue of her or his having satisfactorily completed the original course.

DEGREE REQUIREMENTS

The University at Albany awards the undergraduate degrees of Bachelor of Arts (B.A.) and Bachelor of Science (B.S.) Both require completion of a minimum of 120 graduation credits.

Of the 120 graduation credits for the B.A. degree, at least 90 must be in the liberal arts and sciences. Of those same 120 credits, 30-36 credits are required in an approved major and `8-24 in an approved minor. Eighteen (18) of the major credits, including 12 at the junior level or above, must be completed at the Albany campus; six

(6) of the minor credits must be taken at the University at Albany at or above the junior level.

Of the 120 graduation credits required for the B.S. degree, at least 60 must be in the liberal arts and sciences. Credit totals and requirements at the 300-level for the major and minor are the same as for the B.A.

QUESTION: Do transfer students have to complete the University at Albany's General Education Requirements totaling 24 credits distributed over 5 categories?

ANSWER: It depends on what type of degree, if any, you have earned. See below for detailed explanation.

1) Students transferring without an Associates Degree must complete ALL General Education Requirements.

2) Associates in Arts/Associates in Science degree holders--A.A. or A.S. degree holders will receive a blanket waiver of the University at Albany's General Education Requirements; there is an automatic assumption that ALL General Education Requirements have been satisfied.

3) Associates in Applied Science/Associates in Occupational Science--A.A.S. or A.O.S. degree holders will receive a waiver IF the following conditions are satisfied:

a) Satisfactorily completes 30 credit hours that the UA considers Liberal Arts and Sciences. Students may wish to consult with the Counseling Center at WCC for advice on what courses are acceptable at UA for Liberal Arts and Sciences.

b) Satisfactorily completes with a grade of "C" or higher UA's lower division writing requirement. Freshmen English I (ENG 101) satisfies this condition.

c) Satisfactorily completes at least one course from each of the following areas:

1) Literature and the Fine Arts

2) Social and Behavioral Sciences

3) Physical or Life Sciences

Also, students who are waived from the General Education Requirements DO NOT have to complete the UA Human Diversity Requirement, but MUST complete the upper level writing intensive requirement.

Other degree requirements are listed in Albany's Undergraduate Bulletin under the section entitled Requirements for the Bachelor's Degree.

FINANCIAL AID

Financial assistance in the form of loans, grants and work-study opportunities is available for eligible transfer students who apply. To qualify for any kind of financial aid (except the Parent Loan for Undergraduates-PLUS), you are required to file the yearly Financial Aid Form (FAF). Please note that the University at Albany accepts and uses only the College Scholarship Service Financial Aid Form (FAF) in assessing student economic eligibility for aid. The New York State version of the FAF should be used by state residents, as it also permits determination of eligibility for the Tuition Assistance Program (TAP). New transfer students are required to file financial aid transcripts of the aid they received at their previous college(s), even if no aid was received.

A list of the various federal and state financial aid programs available to matriculated students who demonstrate a need for assistance based on the financial data provided on their FAF follows. Greater elaboration of each program is available in The Undergraduate Bulletin as well as with the Office of Financial Aid. Students are encouraged to apply for all aid for which they feel they are qualified.

FEDERAL PROGRAMS

Pell Grants

Supplemental Education Opportunity Program (SEOG)

Perkins Loans

College Work-Study Program (CWP)

Social Security Benefits for Children of Deceased or Disabled Parents

Veterans Administration Educational Benefits (VA)

Stafford Loans

NEW YORK STATE PROGRAMS

Tuition Assistance Program (TAP)

Regents Award for Children of Deceased or Disabled Veterans

Vietnam Veterans Tuition Awards (VVTA)

State Aid to Native Americans

New York State Educational Opportunity Program (EOP)

The Office of Financial Aid exists to ensure that no student, for lack of economic resources, becomes less than a full participant in University life. This assumes that students and families will first make their best possible efforts to assist themselves. Financial need for aid is the difference between the total cost of attending Albany and your family's ability to pay, as determined by a standard economic need analysis. All financial aid is now based upon the demonstrated financial need of the family. Students are encouraged to file the Financial Aid Form (FAF) as the first step in the aid application process as early as possible in advance of the academic year. FAF's and other forms received after July 1st may not be processed in time to assure that funds will be available in early September (for students entering in Fall semester).

ARTICULATED TRANSFER AGREEMENT

The following Programs of Study represent those majors for which WCC and the University at Albany have negotiated transfer agreements. The Programs of Study constitute the best possible preparation for completion of the bachelor's degree. The courses are listed using WCC course numbers and titles. The University at Albany course equivalents are noted in parentheses. Where no equivalent course exists, the notation will indicate the academic department or school in which the course will be transferred. A level designation (10 = Freshman, 20 = Sophomore) and the letter E designating the course as an elective will be indicated. For example, Eng 20E is a sophomore level English elective. Programs are grouped according to the general academic discipline which offers the major.

Westchester Community College students should note that in addition to the recommended courses in each of the following programs WCC requires two Physical Education activity courses to satisfy their degree requirements.

Every attempt has been made to schedule every other WCC Associate degree requirement into each of the programs, but WCC students, curriculum chairs and advisors should take special care to insure that all Associate degree requirements have been satisfied.

Nine credits of senior level field coursework (Ssw 304, 400, 410 Field Instruction) are required to complete the major at Albany.

NOTE 2: The above program is designed to lead to the **completion of the Westchester Community College Associate in Applied Science Degree in Human Services** which is required to meet the terms of the transfer agreement. Although not included above, WCC students must complete a two credit Physical Education requirement (one in fitness, one in sports).

A Joint Admissions Agreement Between
The University at Albany, State University
of New York and
Westchester Community College

The purpose of this agreement is to outline the procedures for a joint admissions program between the University at Albany, State University of New York (hereinafter identified as the University at Albany or UA) and Westchester Community College (hereinafter identified as WCC).

Under the Joint Admissions Program, students are admitted to both WCC and UA as first year matriculants, with conditional acceptance to UA with junior status after completion of their Associate in Arts or Associate in Science degree. Students are assured that if they achieve the stipulated academic proficiency and distribution requirements as detailed in the WCC/UA Transfer Guide, it will be possible to complete their baccalaureate degree at the University at Albany in four additional semesters (or equivalent for part-time students). Candidates selected for the program will receive, a letter of admission from the Director of Admissions at WCC and the Director of Admissions at the University at Albany.

The students in the Joint Admission Program are expected to enroll at the University at Albany in the semester following the completion of the Associate degree. Students not wishing to continue their baccalaureate program at the University at Albany at that time must apply for deferral, enabling them to delay study for a specified length of time. Students who enroll at a third institution lose their automatic transfer and must have their total academic record reviewed for transfer consideration.

Major requirements for the bachelor's degree will be those in effect at the time the student enters WCC or transfers to UA, at the choice of the student.

The University at Albany, State University of New York and Westchester Community College agree jointly to provide for the following:

1. WCC and the University at Albany will each designate a coordinator of the joint admissions program at their campus. The coordinator at WCC is the Director of Admissions; the coordinator at University at Albany is Mr. George Mitchell, Undergraduate Admissions Office.

2. WCC and the University at Albany will develop, cooperatively, informational publications pertaining to the joint admissions program.

To be eligible for the Joint Admissions Program students need to follow these guidelines:

1. Complete the joint application form provided by WCC (Intent to Enroll Form).

2. In the semester preceding anticipated completion of the WCC degree, send the tuition deposit to the Office of Student Accounts at the University at Albany by May 1 for Fall enrollment, or December 1 for Spring enrollment.

3. At some point prior to enrollment at the University at Albany, provide identifying information necessary to include the students in the SUNY and UA student data base.

The University at Albany, State University of New York agrees to provide the following for students at Westchester Community College who have been accepted in to the Joint Admission Program:

1. In consultation with WCC staff, a Transfer Guide for Westchester Community College students has been developed, outlining required and recommended courses for each articulated **PROGRAM OF STUDY**.

2. Students who pay their tuition deposit by the appropriate deadline will be able to early-register for the succeeding semester and will be given the same registration priority as the University's continuing students. The contract person at the University at Albany is Dan Smith, Office of the Dean of Undergraduate Students, AD-214, 442-3950. Joint admit students, who early register, are required to attend a Summer Planning Conference or January Orientation session.

3. Student will receive periodic information about activities at the University at Albany and about their intended program. They will be welcome at appropriate UA functions and will be encouraged to visit the University at Albany to tour the campus and/or meet on an individual basis with advisors.

4. Representatives of the University at Albany will meet at the WCC campus with students in the joint admission program on a periodic basis. The purpose of these meetings will be to provide academic advisement about the University at Albany's curriculum and general information about the University.

5. The University at Albany agrees to provide, as needed, information sessions with faculty and staff of WCC who will be involved in advising students enrolled in the joint admissions program.

6. The University at Albany will provide WCC reports on the academic progress of WCC graduates who continue their studies at the University at Albany under the terms of this joint admissions program.

7. Freshman applicants from Westchester County who are denied admission will be notified of this joint admissions program and be encouraged to contact WCC Admissions Office for application materials.

Westchester Community College agrees to the following:

1. Application forms for the Joint Admission Program may be obtained from WCC, Office of Admissions.

2. Selection of students for this program will be made by the WCC Office of Admissions according to the basic criteria effect at WCC. The University at Albany Undergraduate Admissions Office and Office of Transfer Affairs are available for consultation and information on recruitment and admission matters.

3. On October 31st and February 28th of each year, WCC will provide University at Albany with a list of all students participating in the joint admissions program. Also at this time, WCC will submit a list of those joint admissions students scheduled to graduate at the end of the semester who have indicated their intent to attend the University at Albany the following semester. Copies of student transcripts will be provided to UA Undergraduate Admissions Office at the end of each semester.

4. WCC agrees to distribute the WCC/UA Transfer Guide to joint admissions students and assist in setting up advisement programs involving WCC faculty and staff.

Terms of this Agreement

This agreement will go into effect for the Fall 1997 admissions date.

To meet the terms of the Admissions guarantee, WCC students interested in programs in the Humanities and Fine Arts and in the Social and Behavioral Sciences must have a minimum 2.40 Grade Point Average (GPA); students in programs in the Sciences and Mathematics (exclusive of Computer Science and Computer Science/Applied Mathematics) are required to have a 2.60 GPA. Computer Science and Computer Science/Applied Mathematics majors need to present a 2.75 GPA in the four core courses in that program. To qualify for guaranteed admission into Social Welfare, students will be required to have a 3.00 GPA. To qualify for Business Administration a 3.25 Adjusted Grade Point Average (AGPA) is necessary. WCC students who enter the Joint Admission/Transfer Articulated Program who have not achieved the required GPA or who have not completed a PROGRAM OF STUDY are encouraged to apply for admission. Each case will be considered on its individual merits.

REPRODUCTION RELEASE

(Specific Document)

I. DOCUMENT IDENTIFICATION:

Title: TRANSFER GUIDES: UNIVERSITY AY ALBANY (SUNY) - SULLIVAN COUNTY COMMUNITY COLLEGE UNIVERSITY AT ALBANY (SUNY) -WESTCHESTER COMMUNITY COLLEGE	
Author(s): Dr. Patrick A. Feti	
Corporate Source:	Publication Date:

II. REPRODUCTION RELEASE:

In order to disseminate as widely as possible timely and significant materials of interest to the educational community, documents announced in the monthly abstract journal of the ERIC system, *Resources in Education* (RIE), are usually made available to users in microfiche, reproduced paper copy, and electronic/optical media, and sold through the ERIC Document Reproduction Service (EDRS) or other ERIC vendors. Credit is given to the source of each document, and, if reproduction release is granted, one of the following notices is affixed to the document.

If permission is granted to reproduce and disseminate the identified document, please CHECK ONE of the following two options and sign at the bottom of the page.

☐ Check here
For Level 1 Release:
Permitting reproduction in microfiche (4" x 6" film) or other ERIC archival media (e.g., electronic or optical) *and* paper copy.

The sample sticker shown below will be affixed to all **Level 1** documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 1

The sample sticker shown below will be affixed to all **Level 2** documents

PERMISSION TO REPRODUCE AND DISSEMINATE THIS MATERIAL IN OTHER THAN PAPER COPY HAS BEEN GRANTED BY

Sample

TO THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC)

Level 2

☐ Check here
For Level 2 Release:
Permitting reproduction in microfiche (4" x 6" film) or other ERIC archival media (e.g., electronic or optical), but *not* in paper copy.

Documents will be processed as indicated provided reproduction quality permits. If permission to reproduce is granted, but neither box is checked, documents will be processed at **Level 1**.

"I hereby grant to the Educational Resources Information Center (ERIC) nonexclusive permission to reproduce and disseminate this document as indicated above. Reproduction from the ERIC microfiche or electronic/optical media by persons other than ERIC employees and its system contractors requires permission from the copyright holder. Exception is made for non-profit reproduction by libraries and other service agencies to satisfy information needs of educators in response to discrete inquiries."

III. DOCUMENT AVAILABILITY INFORMATION (FROM NON-ERIC SOURCE):

If permission to reproduce is not granted to ERIC, *or*, if you wish ERIC to cite the availability of the document from another source, please provide the following information regarding the availability of the document. (ERIC will not announce a document unless it is publicly available, and a dependable source can be specified. Contributors should also be aware that ERIC selection criteria are significantly more stringent for documents that cannot be made available through EDRS.)
